### Short title and commencement

9. This Act is called the Criminal Law (Forensic Procedures) Amendment Act, 2013, and comes into operation on a date determined by the President by proclamation in the *Gazette*.

**MEMORANDUM ON THE OBJECTS OF THE CRIMINAL LAW  
(FORENSIC PROCEDURES) AMENDMENT BILL, 2013**

**1. BACKGROUND AND PURPOSE**

- 1.1 Following recommendations made by the Office for Criminal Justice System Reform (OCJSR), recommendations pertaining to fingerprints as well as a forensic DNA database were included in the Criminal Law (Forensic Procedures) Amendment Bill, 2009.
- 1.2 The Portfolio Committee on Police, when it considered the Criminal Law (Forensic Procedures) Amendment Bill, 2009, decided to deal only with the fingerprint aspects thereof and deal with aspects relating to DNA at a later stage in a separate Bill. The Portfolio Committee on Police thereafter embarked on a study visit to a number of countries in order to gain first-hand experience on how DNA is used in other jurisdictions in the combating of crime.
- 1.3 Following the study visit, the Minister of Police finalised a policy on the Establishment and Administration of a National DNA database that was presented to the Portfolio Committee on Police. This policy formed the basis for the drafting of the current Criminal Law (Forensic Procedures) Amendment Bill, 2013.

**2. PROVISIONS OF THE BILL**

- 2.1 **Clause 1** Seeks to amend terminology and inserts new definitions in chapter 3 of the Criminal Procedure Act, 1977 (Act No. 51 of 1977), such as definitions for “bodily sample”; “buccal sample”, “DNA”, “forensic DNA analysis”, “forensic DNA profile” and “comparative search”. It also provides for the taking by a police official of a buccal sample, subject to training requirements set by the Minister of Health and subject to certain circumstances, in a designated area. It furthermore provides that the measures relating to children in respect of fingerprints would also apply in respect of the taking of bodily samples. The titles of the legislation referred to in the Chapter are also abbreviated in the definitions.
- 2.2 **Clause 2** inserts a new section 36D in the Criminal Procedure Act, 1977, which provides for the categories of offences in respect of which a buccal sample must be taken and may be taken if a person is arrested upon a charge, released on bail or summonsed in connection therewith. The clause also deals with the forwarding of samples to the Forensic Laboratory, the re-taking of samples, subjecting samples to a comparative search, a limitation upon the use of such samples or profiles derived from such samples, and the keeping and destruction of such samples. A crime is provided for the abuse of DNA samples or forensic profiles, punishable with a period not exceeding 15 years imprisonment. Clause 2 also inserts section 36E to provide for the taking of a buccal sample of a person or group of persons where it is required to exclude or include a person in the investigation of a crime and to subject the sample taken for a forensic DNA analysis and a comparative search. DNA samples of persons who are not arrested may only be taken with their consent or with a warrant authorising the taking thereof.
- 2.3 **Clause 3** substitutes section 212(6) and (8) of the Criminal Procedure Act, 1977, to provide also for bodily sample or crime scene sample.
